¹ As of Sep 28 2020, in Illinois, only Cook County routinely published Covid-19 related death information by zip code of residence. Occasionally this information included the zip codes of deaths of non-Cook County residents that occurred in Cook County. In these situations, the information regarding deaths here published for those zip codes must be considered incomplete.

² Derived via quantiles in Chicago's Covid-19 incidence data. The rate level classifications for zip codes are relative and subject to change as new cases are added.

³ PL: Population Level. Where Majority= Over 50% of the population; Minority PL can be Low, Medium, or High; (where L(ow)= under 5%, M(edium)= 5 < 20%, and H(igh)= 20-50%).
